

LED BOARD

Specification:

Cabinet /body: Ms Material with powder coated

Mounting Type : Crane

Dimensions: (L*H*B) 635*165*72 MM

Numbers of LED: 4096 LEDs

Communication: RS 232 /9 pin "D" type connector

Colour: Red

Ambient temperature: up to 55 degree Celsius

Height of characters: 125 mm

Working voltage: 230v, single phase AC, 50Hz

Rated life of LEDs: >40000hrs LED modules

Type: ultra bright leds

Pixel pitch: 5mm

Total character per board: 8 characters
